The purpose of the Public Informational Meeting is to inform interested citizens of the proposed design and project impacts for the CTH SR bridge replacement. The proposed project will replace a bridge in poor structural condition with a four-span bridge. The bridge and approach roadway will be raised in elevation to mitigate roadway flooding. Land acquisition is required for this project. CTH SR will be closed to traffic during construction of this project and a detour route will be posted. Project construction is scheduled for 2008.

The meeting will be conducted in an open house format with drawings and other exhibits on display for public viewing and discussion. Representatives from the Waukesha County Department of Public Works and K. Singh and Associates will be in attendance to answer questions regarding the project.

The Public Informational Meeting site is wheelchair accessible.
